of Professional Studies,
Patna, Bihar, India

Abstract

Distance mode of education is highly demanded among working professionals; those who are involved in services or businesses they achieve their degrees by the help of correspondence courses. Within the country and its outside, there are so many courses offering to the students that make the way easier to continue learning at the reasonable cost and minimum hardship. Distance Edu- system is helping the youth generation to make them independent in learning on its own. There are so many universities where young professionals are offered to be part of those courses to continue learning and excel their capabilities in their significant areas.

Key Words- *Distance Education, Online Mode, Working Professionals.*

Introduction

Opting Distance Education as a source of obtaining degrees is considered as a boon while one is professionally growing in his working field. Such system of Learning is a kind of educational weapon which is “*Treasuring the benefits of career growth*” especially in context with the working professionals. It is a medium of delivering education to the students who are not physically present in a traditional setting such as a classroom. It provides access to learning to the students from their home. They get themselves enrolled without entering into the College or University and get an access to learn as per their choice. Today’s working professional want to take degrees for their career progress. Distance is the medium that

makes the way easier of obtaining various degrees / diplomas / certificate courses etc. at home. So many Skill Development Programs as well as Online Training schemes are also made available through the spectrum of correspondence courses.

Process, Scope and Benefit

The PROCESS of running any Distance Program is the responsibility of the university; it balances regular and correspondence courses altogether in the same affiliation. Those departments, who manage works to streamline distance courses, are separated from regular wing of the University administration. University conducts admissions and exams at the same time, only classes are not arranged for the distance learners. However, they can attend regular classes exceptionally with approval in the same university /college. They have the Learning guides and kits based on syllabus to pursue at home for establishing their better understanding with the courses. In India, UGC (United Grant Commission) is the sole regulating body in the country for distance education and it has been granting approval to the institutes to offer courses that must follow certain standards and guidelines. More than 100 UGC approved Universities offer Distance Learning Program in the country. In accordance with the directions of the Central Government in 2012, the responsibility of undertaking the regulatory functions of the Distance Education has been transferred from Distance Education Council (DEC) to University Grants Commission (UGC). Thus, before looking further for any courses, learners need to check UGC approval documents of that institution.

Its SCOPE is vital and acceptable for all in this age of e-learning. Where Students have no time to attend college due to their job purpose; this way of learning is the best option to continue one's learning with earning. The points which we should consider before adopting any distance medium of education are:

- ✓ It saves money and time.
- ✓ It completes most of the classes at one's convenience.
- ✓ Students can work anywhere along with their study.
- ✓ It allows a student to balance family, work and classes.

- ✓ Fees are generally less expensive in comparison with the regular courses.
- ✓ Subjects are unlimited, and no bonding in selecting papers of their own choices.
- ✓ Degree and Diploma both are available.
- ✓ Online method of learning is easier to understand following with the help of Cds and DVDs of the courses
- ✓ It helps women professionals to gain knowledge and degrees for their upliftment.
- ✓ ‘To the point’ study material available for better understanding.

Working Professionals are BENEFITTED with Distance mode of learning, as they have minimum time to attend teaching lab. Distance education is covering the whole field of education from academic to technical fields. Those who work in offices, they are blessed with such medium. Opting papers as per choice help them grow with higher education. Sometimes they fail to finish it within a set session, Distance mode has option to expand sessions for their convenience.
